

Timing of Antibiotics

Spread out over waking hours. Watch timing – Give at least 6 hours apart, but ***avoid having to wake resident up if possible***

Augmentin (amoxicillin/clavulanate)

Causes GI distress – Take with am and pm meal if BID

Fluoroquinolones

Ciprofloxacin, levofloxacin, moxifloxacin – do not give with Calcium/
Iron/Magnesium -separate > 2 - 4 hours

Doxycycline

If GI upset, give with meals. Give with at least 8 ounces (240 mL) of water and have resident sit up for at least 30 minutes after taking to reduce the risk of esophageal irritation and ulceration.

Calcium/Iron/Magnesium separate > 2 - 4 hours
